Subject: FW: DELIBERATIVE - Draft Review Comments on the AW Briefing Document
DRAFT Summary of collective EPA review of American Water document march 4 0430pm clean.docx

Bob –

Attached is the what might be the final version of the ORD/OW review of the American Water (AW) paper. This version reflects the team's response to Region 3 comments on the draft from last week. There are no significant changes in the technical reasoning in the review or in its conclusions compared to the version you reviewed last week. Region 3 worked with the review team to simplify the language and shorten the paper a bit so that the messages coming from the review are clearer, more straight forward to follow.

I understand that the Region 3 water folks are briefing their RA this morning about this draft and a proposed Region 3 approach to responding to the AW paper.

Ex. 5 - Deliberative

Ex. 5 - Deliberative

The ORD/OW team has worked hard together on providing what I think is a great review.

Let me know if you have any questions or concerns.

Greg

Vicky/Bill,

Attached is a version that reflects our discussions this afternoon. Our management will review. We will send you another revision if they require any changes.

Thanks for your helpful comments and suggestions.

Vicky/Bill,

For our discussion at 3pm, please find attached a revised draft based on your comments. I've included two versions. The one marked clean has the many track-changes accepted, leaving only the comment boxes which also contain replies to your comments.

We hope we have addressed all your comments and look forward to talking to you.

Thanks.
Matthew

Matthew,

I'll be in a meeting until 3 PM. Can you send the updated document with our responses to the Region prior to our 3 PM call?

Thanks,
Steve

Subject: DELIBERATIVE - Draft Review Comments on the AW Briefing Document

Steve;

Vicky and I would like to thank you and the team for the timely review of the draft American Water Briefing document on the Evaluation of Chemical Interactions with Pipes. We very much appreciate the consideration of the issues that were presented. Vicky and I both have reviewed the team's comments and provide some additional thoughts for your consideration. Hopefully these will provide some additional context to the issues. Please see the attached file.

Please let us know if any of these comments would require additional discussion. We would be glad to discuss our thoughts in detail with you and the team.

Thanks again for all of your help
Bill Arguto
